Sasuni Wijerathne

Enthusiastic and results-driven Software Engineering undergraduate, currently in the second semester at IJSE, pursuing a Higher National Diploma in Software Engineering. Proficient in both backend technologies including Java, Spring Boot, REST APIs, and database management, as well as frontend development using JavaFX, HTML, CSS, and JavaScript. Experienced in designing and building full-stack applications grounded in strong OOP principles and modern software development practices. Adept at problem-solving, critical thinking, and adapting to new technologies. Known for creativity, collaboration, and leadership, with proven success in competitive programming and software development hackathons.
